#### I am:

- ✔ Technologist in soul
- ✔ Creative
- ✔ Can do attitude?! Already doing it...
- ✔ Good with people
- ✔ A partner – I treat my workplace as if it was mine
- ✔ Articulate
- ✔ Fun

#### Things I'm doing for the soul:

- ✔ (Geek alert) Technology research & Coding. Seriously.
- ✔ Piano, Guitar, Drums and singing. I also played in a band. We did this, and this and even this.
- ✔ Running (when not on a break)
- ✔ Iyengar Yoga
- ✔ Lego and to build stuff in general.

#### Things I've done for a living:

- ✔ ~9 Years (since 2010) – VP R&D @ Magma Group

Magma is a lead provider of MES/Industrial IoT IT solutions to customers worldwide – partner with [Lighthouse Systems](#).

In addition, the company develops various of cloud-based solutions

- ✔ Led Teams of Software Developers (<=15 developers)
- ✔ Did Business Development, Strategy and Sales (Technical)
- ✔ Established (almost) from scratch the MES/Industrial IoT division
  - Introduced SCRUM
  - Introduced GitHub & CI
- ✔ Managed the partnership with Lighthouse in the UK.
- ✔ Managed Customers and IT projects
- ✔ Hands on work (a lot!): C#, SQL, REST APIs, Azure Functions, Google Firebase/Firestore NoSQL, Node.js & GraphQL

- ✔ ~6 Years (2004-2010) – Senior Developer ->Team Leader @ We! Consulting Group\*

- ✔ Designed, Developed & Managed EAI & B2B solutions based on Microsoft BizTalk Server (C#, SQL, WCF) for various customers

- ✔ Managed a team of 6 developers

- ✔ (2002-2003) – some Start-Ups (Like TeleMessage) and other software gigs doing some QA and Java development.
